

FINANCIAL SERVICES

Manage Regulatory Compliance Risk Better with Solutions from DIO-soft

Regulatory compliance solutions from DIO-soft empower financial service firms to meet strict, ongoing regulatory challenges with ease. Combined compliance capabilities of open source software can help your organization improve profitability and decision making while addressing constant regulatory demands.

With flexible Data Management Solutions and Regulatory Response Framework from DIO-soft, you can enable your organization to:

- Reduce the regulatory impact on your bottom line by implementing smarter data management solutions
- Incorporate compliance and policy management procedures into one easy-to-use system
- Adapt to regulatory changes while seamlessly managing new compliance demands
- Better organize regulatory compliance processes while improving decision making

DIO-soft Delivers Results

Packed with integrated analytics and advanced reporting features, our regulatory compliance solutions support your team by:

- Collecting relevant data from data sources scattered across your enterprise
- Facilitating timely and accurate reporting of data across multiple locations
- Successfully completing AIFMD, Form PF, Form CPO-PQR, OPERA, FATCA, etc.
- Saving time, money and resources with well-organized, easy to maintain systems
- Avoiding non-compliance penalties with timely, accurate and complete transmission of data sets

DIO-soft

Intelligent Solutions

Discover the DIO-Difference

For over a decade, DIO-soft has been successfully completing projects that address regulatory and compliance challenges, including a number of G16 banks and major fund administrators. Helping businesses achieve mission success through our proactive, results-driven approach to software and IT. Our thoughtful, passionate team of over 500 application architects, software developers, quality assurance engineers and database specialists work closely with clients to provide technology tools that let them perform their best. We don't just say yes, we ask why. And we won't stop until we've figured out *how*. With offices in the US, Poland, Ukraine and Belarus, we offer offshore or onshore engagements, or a combination of both, to satisfy every client's unique needs.

Contact us today and learn why some of Wall Street's most recognized financial institutions depend on DIO-soft.
